

# Instructions for installing BlackBerry® Connect™ software and activating BlackBerry®

## Internet Service on HTC

Preliminary requirements:

- Installed Microsoft® ActiveSync® v4.1 (or later) on your computer.
- SIM card with activated BlackBerry® service.
- Actual software version for your cell phone (Windows® Mobile™ v.6.x)

**Important:** To use BlackBerry® service you need to activate BlackBerry® Internet Service from Mobinil, Installed BlackBerry Connect™ software on your phone and to have created an account in BlackBerry® web  
Activation link of Mobinil ([www.mobinil.blackberry.com](http://www.mobinil.blackberry.com))

### 1. Installing the BlackBerry® Connect™ software on the phone

**1.1** Connect your phone to the computer via data cable.

- Microsoft® ActiveSync® starts and connects to your phone.

**1.2** To install the BlackBerry® application on your phone double clicks on the downloaded (.exe) file.

**1.3** Click “**Next**”.

**1.4** Click “**Install**”.

**1.5** In the Application Downloading Complete dialog box, click “**OK**”

**1.6** Click “**Finish**”.

**1.7** Restart your phone.

**1.8** To create BlackBerry® account in BlackBerry® web activation of Mobinil ([www.mobinil.blackberry.com](http://www.mobinil.blackberry.com)) you will need PIN and IMEI numbers. To see the PIN and IMEI numbers of your phone follow the steps:

**1.8.1** Click “**Start**” -> “**Settings**”;

**1.8.2** Click “**System**”;

**1.8.3** Click “**BlackBerry®**” icon;

#### \* Note

1. Please back up your data first before installing the software.
2. Please close all programs on your PC/laptop when running the installation utility.
